2. Map out your Digital Plan
3. Assign Directives to all your digital accounts
4. Select your Reports:

Digital Asset Disclosure Report

Digital Asset Inventory Analysis

Don't forget to account for all your data, rewards and funds left online

WHY CHOOSE US?

DEXIT is the only IT solution for digital executorship. Our extensive, verified database is current on all custodian account information. Our technical advisors are ready to assist you with your digital estate needs.

OUR MISSION

Our mission is to help estate planning professionals and their clients incorporate their digital assets, accounts and online legacies into their estate plans.

DISCOVERY PROCESS

The Discovery Process requires you to complete a dynamic questionnaire and assign directives to the accounts you disclose. Your identity remains completely anonymous to Dexit; we do not ask for any private or password information.

DISCLOSURE REPORT

The Digital Asset Discovery Report is a convenient checklist that your lawyer or executor will use for document preparations. It provides company accounts and directives.

INVENTORY ANALYSIS

The Digital Asset Inventory Analysis outlines custodian account details, links and directive options. and give current testator step by step instructions on recommendations available by that provider using the latest verified information. There is also an Executor Recommendation section which outlines the steps available in order to perform their judiciary duties as it pertains to technical needs and requirements.
