

Sharing an iPhone on Zoom from a Mac

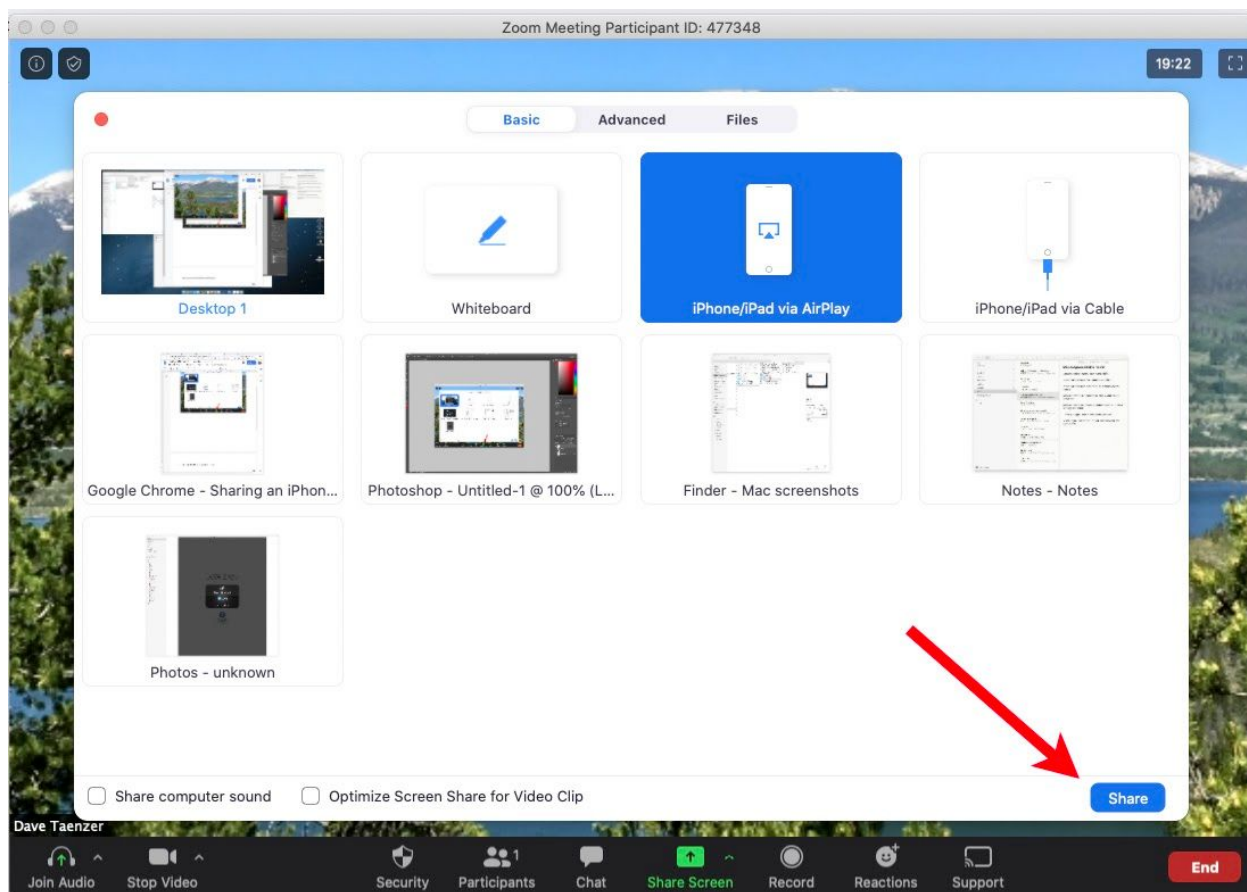

Click on the Green Share Screen button near the bottom of the window

Next, click on the iPhone/iPad via AirPlay box:

Then, click on the blue Share button:

You will see something like this on your Mac:

On your iPhone or iPad:

1. Connect to Wi-Fi network **"Taenzer_5G"**

2. Tap  **Screen Mirroring**

How to find it: swipe down from the top right corner of the screen

On iOS 11 or earlier, swipe up from the bottom of the screen

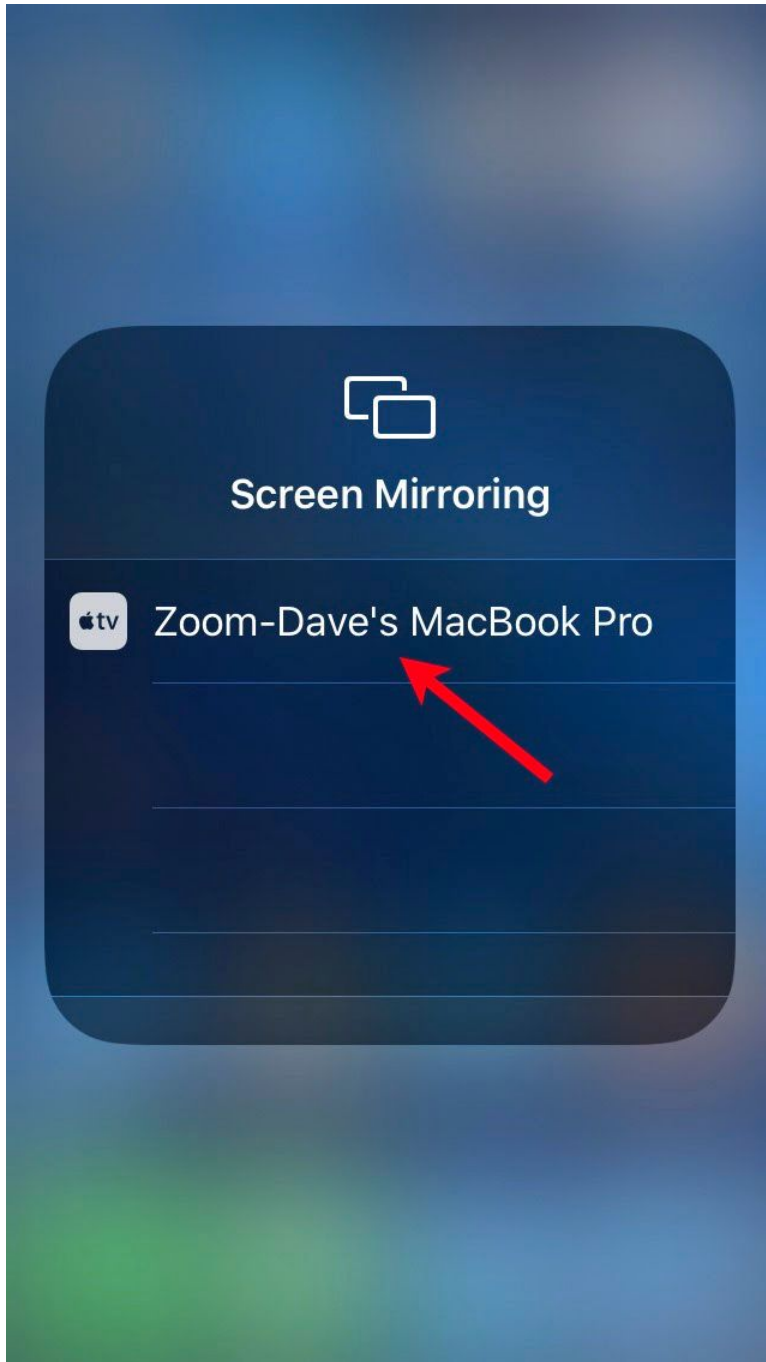

3. Choose **"Zoom-Dave's MacBook Pro"**

Don't see it? Restart your device

On your iPhone open the Control Center. Swipe up from the below the center of the screen on older iPhones (iPhone 8 or earlier), down from the upper right on newer iPhones (iPhone X or newer). It will look something like this:

Touch the Screen Mirroring button and the screen will appear like this:

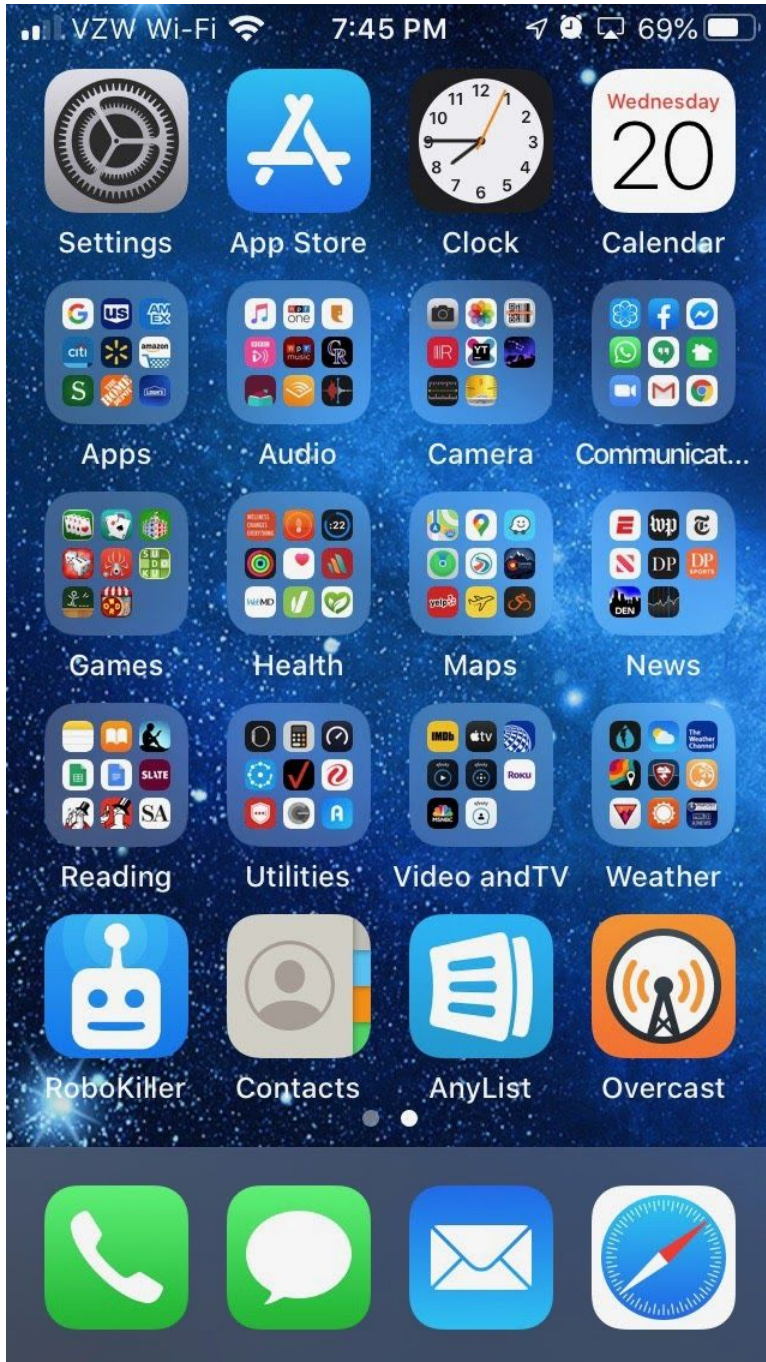

Touch the Zoom button (it will have the name of your machine on it) and the screen will look like this:

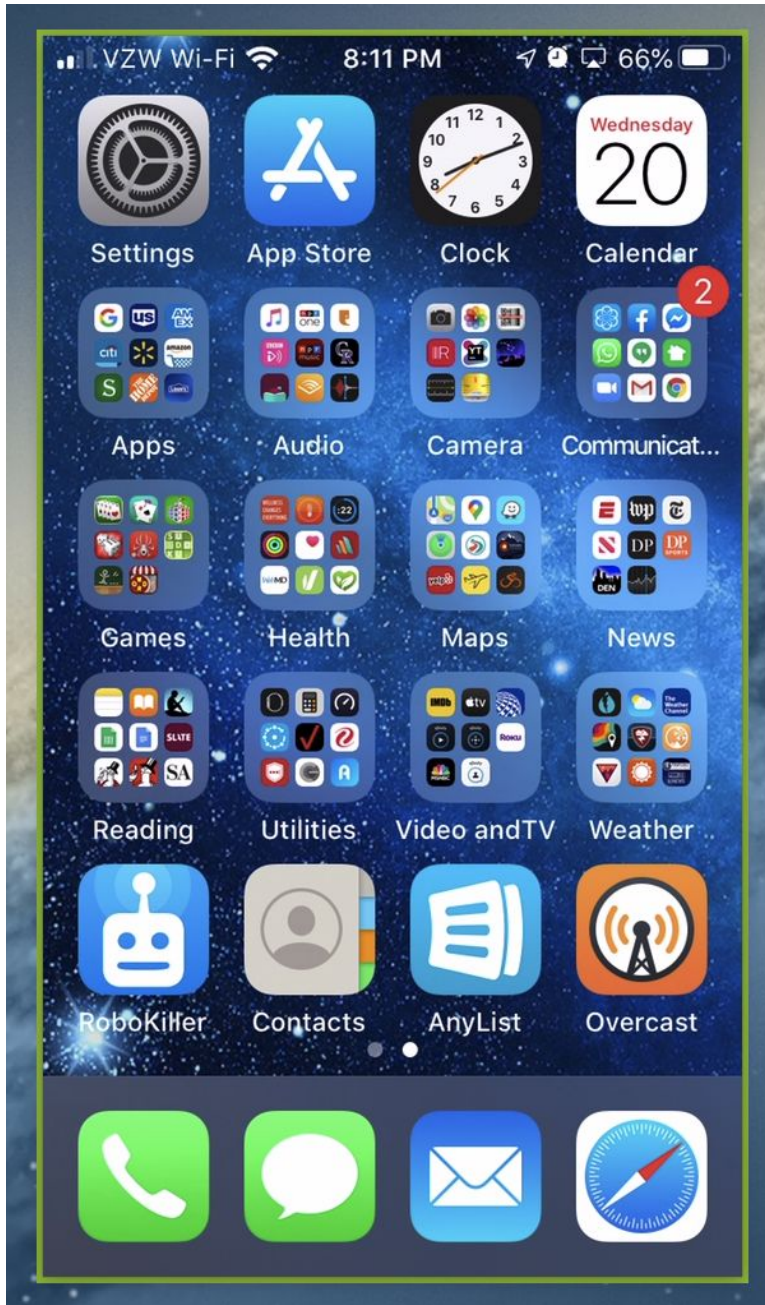

Touch the Home button and the screen will look like this:

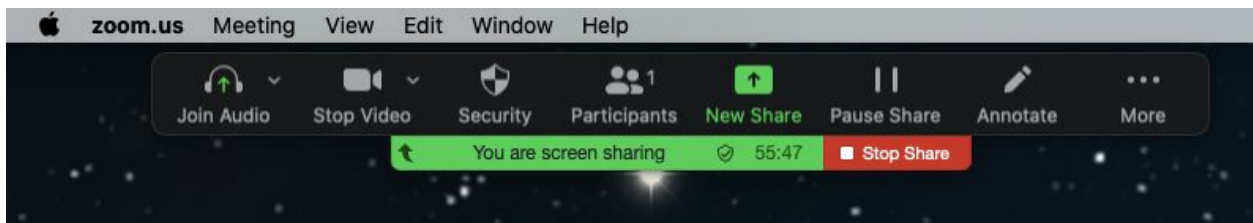

Touch the home button again to return to the home screen:

This now appears on your Mac Screen:

With a red Stop Share button near the top of the screen:

Press the red Stop Share button when you are finished sharing your phone.
